SCI's President & CEO Lynette Spano to be Honored as One of Fifty Influential Entrepreneurs in Business July 27, 2007

VIENNA, VA – The Minority Enterprise Executive Council and MEA Magazine will honor Lynette Spano, President and CEO of SCI Consulting Services, Inc. (SCI) on Friday July 27, 2007 at the national awards gala, "Fifty Influential Entrepreneurs in Business", at the Four Seasons hotel Washington, D.C.

This prestigious award, recognizing Ms. Spano's achievements and vision will be presented in the company of several industry speakers including: Mr. Rodney P. Hunt, President of RS Information Systems, Inc. and Mr. Greg J. Baroni, President of Federal Systems at Unisys Corporation.

Creating SCI from the ground up, Lynette Spano literally started her small business in the basement of her mother's home in New York City in 1983. Software Control International specialized in selling hardware, software, and information technology services to the Federal Government. An 8 (a) graduate SCI has become a highly profitable business, which continues to win industry awards and multi-million dollar contracts.

With twenty-four (24) years in the industry, SCI is no longer a fledgling business in unfamiliar territory. SCI is however, a Minority Small Disadvantaged Business leader, taking calculated risks and staying true to the mission and vision of the company as set by its founder Lynette Spano.

Outside of SCI, Lynette has found numerous ways to give back to the community. She has served as the President and Chairwoman for a non-profit which fosters the development of Latino youth through sports. As an entrepreneur, she noted, "it is vital to keep your mind thinking in new directions. For me the opportunity to contribute to the future successes of Latino youth while fulfilling my need to create, develop, and implement something new is an added bonus. I am looking forward to this gala as an opportunity to continue to give back and show other minority entrepreneurs that we can make a difference."

SCI, a 100% minority woman owned company, is a role model for other entrepreneurs and small businesses. As a people first organization, SCI strives daily for the betterment of its stakeholders. As a result SCI is "a great company to work for and a great company to do business with". To learn more about SCI please log on to: www.sciworld.com
